Daily Virtual Cafeteria

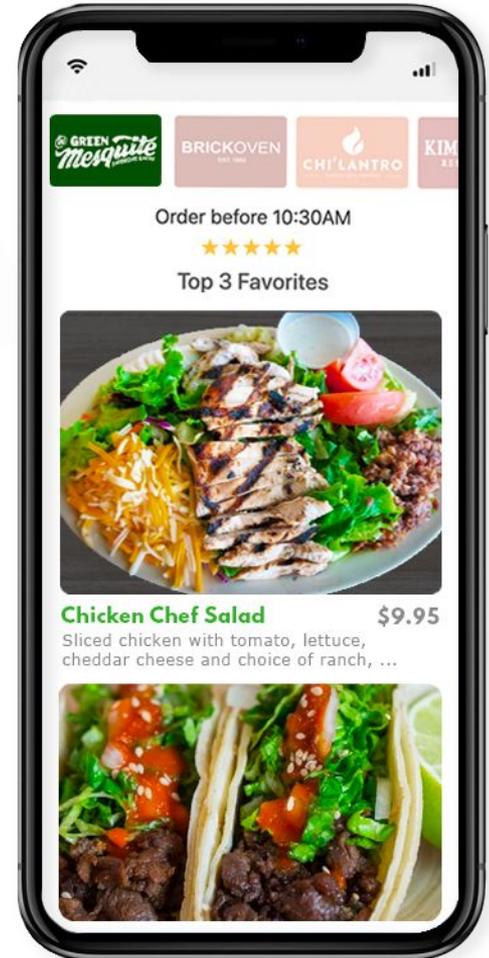

How it Works

Each day we'll offer between 2 to 12+ different popular restaurants based on your preferences and expected order volume.

Employees can easily order anytime, from a week in advance up until 10:30 AM same day! Our custom reminders and admin tools help ensure no-one is left without a meal.

All meals arrive individually bagged and labeled between 12:00-12:30 PM. We also offer custom delivery times upon request, and can provide breakfast and dinner service.

Our platform is built mobile-friendly first, enabling employees to order quickly and easily without the tech barriers of installing an app. Our virtual cafe supports team lunches, guest ordering, and many more features.

Catering

How it Works

This is a great option for offices preferring trays to individual lunches.

You'll have a **dedicated Lunchdrop catering manager**, at no cost, to help schedule your restaurant preferences.

Simply share your headcount and budget, and we'll take care of the rest!

We offer full service on-site catering for a minimal add-on. We'll do all the setup and cleanup.

Advanced Features and Dedicated Support

Flexible budgeting

Set daily, weekly or monthly budgets and easily toggle participants. With the virtual cafe, you can offer to pay for part or all of a participant's meal, as well as set hard caps.

Set it and Forget it

While most admins prefer to let our programs run on auto-pilot, you're always in control to adjust any settings in real-time.

No Contracts

We've worked hard to build the best catering platform. We're so confident you'll love it that we don't require commitments or contracts.

Notifications and Alerts

As an admin, you can easily see all orders, and you can choose to be included on any delivery related updates. You're in full control!

Dedicated Support Team

All urgent issues are handled in minutes, with all other issues handled same business day.

Custom Payments

We support weekly or monthly invoicing with terms, payable by credit card, bank deposit, or check.

From Our Leadership Team

We're proud to offer our industry leading platform for free, and to deliver great lunches every day at the **same price as picking up** at the restaurant yourself.

Your budget will go to feeding your team and supporting local restaurants, as opposed to third parties that charge **high delivery fees, mark up menu items, or include hidden costs.**

Lunchdrop is committed to wowing customers with unbeatable service and prices.

Thank you for the opportunity!
